

Long Beach Children's Oral Health Initiative

In collaboration with the Long Beach Unified School District

Does your child need to see a dentist?

A child needs to see a dentist regularly to stay healthy. Your child's first visit should be by the first birthday.

Does your child have tooth decay (cavities)?

A child needs to see a dentist to see if they have tooth decay.

Does your child need a dental exam for kindergarten?

California law now requires kindergartners to have a dental check-up for school.

Does your child drink local tap water?

Local Long Beach tap water has fluoride and it's safe. It is proven to make teeth stronger and healthier.
