Dental Board Required Courses

California Dental Practice Act and Infection Control — Ticketed admission only

Effective January 1, 2006, the Dental Board of California requires mandatory education in Infection Control and California Dental Practice Act (formerly known as California law). Beginning with the 2004-2005 renewal cycle and every renewal cycle thereafter, California state law requires licensed dentists and allied dental health professionals to complete 2 units in Infection Control and 2 units in the California Dental Practice Act. The California Dental Association is proud to present the following courses that will fulfill these required units for license renewal.

Please note:

- Admission to these C.E. courses will be by ticket only.
- You may purchase your ticket in advance by completing the registration form at www.cda.org. Tickets are \$10 and will guarantee your seat in the course.
- If available, tickets will also be sold on site at the ticket booth located in the registration area of the Anaheim Convention Center.
- There will be no late entries allowed. The California Dental Practice Act requires 2 full hours for credit. It is strongly recommended that you arrive a minimum of 15 minutes in advance of the published starting time.
- Seating is limited. Tickets will be sold on a first-come, first-served basis.
- Licensees are required to attend only one class on the California Dental Practice Act and one class on infection control.
