

Support dental care for Ukrainians

Stand with the California dental community in offering humanitarian relief to people who have been affected and displaced by the war in Ukraine.

The CDA Foundation, the philanthropic arm of the California Dental Association, has opened the Ukraine Relief Fund to support the provision of dental care for people affected by the ongoing crisis. Anyone who wishes to support this effort can do so by making a tax-deductible monetary donation to the fund. All donations will go toward providing dental care to Ukrainians.
